

St Andrews Family Trust

Funding Criteria

St Andrews Family Trust operates in partnership with parishes and social service agencies to deliver programmes and services which benefit children and families. Please note the following

- Our primary focus is children and families.
- We prefer to fund work which occurs at an early intervention level.
- New and innovative projects which provide a “help up” are encouraged.
- Programmes which invest in and strengthen community are viewed positively
- Evidence of an evaluation of community needs in program planning is desirable.
- No large capital items or building expenses will be funded.
- Funding is not automatically ongoing.

Notwithstanding the above, the Trust reserves the right to exercise absolute discretion to make grants outside the above criteria if God leads.
